Comment**

Date Aug 11, 1999

The CALFED Bay-Delta Program welcomes your participation. Please use the space below for your written comments (attach additional sheets if necessary).

Comments:

- S.F. Bay needs more fresh water flowing into it, not less.
- Water conservation, especially in agriculture, must be implemented before any dams are built diverting Bay-Delta water south.
- If taxpayers are to pay for dams, then let the taxpayers contribute to paying for more efficient water usage technology instead.
